SUMMARY

Computer Science student interested in internships or co-ops. Proven experience in programming and product creation through programming internships, building robots, and creating products at Hackathons.

EDUCATION

Georgia Institute of Technology, Atlanta, GA
Bachelors of Science, Computer Science, Expected Graduation: 2020

Gwinnett School of Mathematics, Science, and Technology, Lawrenceville, GA
High School, 2016

TECHNICAL SKILLS

Programming:
- Python, Java, HTML/CSS, Dabbled in iOS Development and MySQL

Operating Systems:
- Unix, Mac OS, and Windows

Network Technologies:
- Django, Flask

EXPERIENCE

Georgia Tech Research Institute Atlanta, GA   8/2015 - 5/2016
Intern
- Used Python in the Robot Operating System to program a Raspberry Pi to create a monitoring system.

Shure Auto Sales Stone Mountain, GA   6/2012 - 8/2017
Employee
- Sold cars and processed customer documents

NCR Duluth, GA   6/2014-7/2014
Summer Intern
- Used Bootstrap to create Responsive Websites for NCR's MADCAP software used for technical documentation.

ACTIVITIES AND AWARDS

- Placed **1st** at UGAHacks in Spring 2017
- Placed on Panther Hackers Tech Committee at Georgia State University in Spring 2017
- Secretary for Technology Student Association during High School
- Selected as Technology Major for Governor's Honor's Program in Summer 2015

COURSEWORK

Intro Object-Oriented Programming   Multivariable Calculus/ Linear Algebra   Discrete Mathematics

PERSONAL PROJECTS

Personal Website, Summer 2017 - Present
- Uses Django to create a web backend to store my projects, a blog, and some personal info

nTime, Spring 2017, UGA Hacks
- Used Flask, Python, and C to create an IoT device with an Arduino device which helped users wake up at the proper time by accounting for traffic, weather, and time it takes a user to get ready
